PROJECT WORKS

1. Full Stack Web Development [Developer]

Tech Stack: HTML, CSS, JAVASCRIPT, SQL

- Developed and optimized interactive learning modules using HTML, CSS, and JavaScript UI principles to create engaging and responsive digital literacy resources for learners.
- Developed tailored user interface features and optimized component logic to enhance the usability and efficiency of the literacy platform for both learners and educators.

2. Automatically Mount EFS Volume When an EC2 Is Restarted. [AWS]

Tech Stack: AWS, Web Application, GitHub.

- Designed and implemented a fully automated on AWS leveraging services like Code Commit, Code Build, and the build, test, and deployment processes for web applications

3. Virtual Volume Controller [Image Processing]

- Developed and optimized image processing pipelines using libraries like OpenCV and Python, implementing techniques such as volume controller and manipulation the change in the system like increase and decrease in the system is analyzed.

4. **Privacy Preserving on Screen Activities Using Federated Learning Module [Final Year Project]**

- develop a system that monitors user on-screen activities (e.g., other url, distracted, looking away, present, screenshots) to derive meaningful insights or predictions (e.g., productivity, user intent, malware detection) without compromising user privacy.

Certificates And Internships

- 2022 -Full Stack Web Development. (Offline)
- 2023 – Full Stack Web Development. (Online)
  Hands on Experience: - Full Stack Web Developer proficient in building and deploying end-to-end web applications. Front-end technologies (HTML, CSS, JavaScript) and developing server-side logic with languages like PHP, coupled with database management (SQL)
- 2024 – DevOps (AWS)
  Hands on Experience: - DevOps Engineer with a strong understanding of automation, infrastructure as code, and continuous integration/continuous delivery (CI/CD) pipelines.
- 2024 – Volunteer of International conference. (IEEE)
- 2025 – Participated as Author in the International Conference. (IEEE)
- 2025 – Java Full stack Web Development (In-progress)

EDUCATION

Adichunchangiri Institute of Technology COLLEGE OF ENGINEERING — **Chikkamagalur, Karnataka**
Bachelor of Engineering, Computer Science & Engineering – 7.5CGPA — **2021-2025**

Mahesh Pu College — **Udupi, Karnataka**
Pre-University, PCMC – 70% — **2020-2021**

Poorna Prajna Education Center — **Belur, Karnataka**
SSLC – 72% — **2018-2019**

TECHNICAL SKILLS

- **Languages**: Java, HTML, CSS, JavaScript, basic of DevOps, Data Structures.
- **Frameworks and Tools:** Eclipse, Visual Studio Code (VS Code), IDLE, GitHub, AWS, Xampp.
- **Database**: MySQL
- Spring, JDBC, Collections.
